BARKMAN

— FURNITURE —

Barkman Furniture is an Amish furniture manufacturer nestled in the scenic hills of Holmes County Ohio. Where, consistent with the area's slow-paced lifestyle, each piece of fine furniture is hand crafted by Amish artisans, one piece at a time.

Amish furniture has long been known for its excellent craftsmanship, established through the use of age-old techniques. The attention to detail and durability set it apart from other furniture, making each piece worthy of being a family heirloom that can be used for generations.

Albert Barkman began pursuing the art of furniture making at the young age of 16. He and his wife purchased a spacious modern facility in 2008 to allow for the introduction of a premium line of high-quality solid hardwood furniture. Barkman's collections cover an extensive variety of styles including Transitional, Mid-Century Modern, Modern Farmhouse, and Rustic. The line continues to evolve with exciting new collections introduced quarterly. Barkman's in-house design team works together to create beautiful, functional designs, built to fulfill the desires of today's consumers.

The Journey from Forest to Home

The crafting of fine furniture is, indeed, a journey. Starting with intentional designs created with the end user in mind, and resulting in heirloom-quality furniture that will last for generations to come, making the trip with Barkman is sure to be worthwhile.

Design

Barkman's furniture is designed for exceptional comfort and style, taking into account the functionality of the piece. Our in-house team works together to design furniture that is not only aesthetically pleasing, but enjoyable to use and built to last for generations.

Inception & Preparation

Hardwood logs used in the construction of Barkman's furniture are sourced exclusively from sustainable Midwest forests. The logs are processed into lumber which is graded, sorted, and dried to ensure proper seasoning. Once the boards are adequately seasoned, they are used to build panel and frame components at incredibly close tolerances with state-of-the-art equipment.

Production

The construction of a piece of furniture begins with framing, using time-honored techniques for joinery such as dovetailing, tongue-and-groove, box joints, and mortise-and-tenon. These methods have been used for centuries to build furniture that stands the test of time and bears the unique signature of the craftsman who built it.

Perfection

Once the piece is assembled, hours of planing, filling small knots, and hand-sanding ensure that it is perfectly conditioned to properly absorb the finish that was chosen for it. The process of applying the finish utilizes a combination of automated spray application, hand-wiping, and hand-sanding techniques. The result is an impeccably smooth finish that provides protection and enhances the natural beauty of the wood, which only improves with the patina that time creates.

Delivery

Barkman employs a variety of dependable delivery services to transport each piece securely to the retailer who purchased it. White glove delivery can also be arranged to bring the piece directly to the consumer's home, where it will be installed by professionals. Each piece of furniture is blanket-wrapped and carefully loaded to ensure that it arrives safely to its destination.

I Provincial Cottage Dining Collection

The Provincial Cottage collection was inspired by furniture that was hand-built by our ancestors. Workmanship of the individual artisan is seen in distressed surfaces and edges, and in hand-planed top surfaces. The look is that of furniture crafted from materials close at hand, using basic hand tools, and built to last.

Live Edge Dining Collection

Live edge dining brings nature indoors. Because the natural edge of the tree defines table edges, no two pieces are ever exactly alike, creating one-of-a-kind heirloom furniture. Choice of species and metal or natural bases, creates styling appeal ranging from contemporary to rustic.

Live Edge Matched-Grain Company Boards

When friends and family come to dinner, offer them a seat at the table with these matched-grain company boards. Enjoy the natural grain of the hardwood tabletop as it seamlessly extends into the company board, creating a beautiful and cohesive look. Live-edge dining is available in species whose grain characteristics best showcase the beauty of live-edge styling. These species include Wormy Maple, Rustic Cherry, Grey Elm, Rustic Walnut, and Rustic White Oak.

Most tabletops are finished with boiled linseed oil and then coated with a clear topcoat, enhancing the beauty of the natural grain without the need for additional staining steps. The Straight Edge tops are available in any wood species, and both can be finished in any stain color. The Company Boards come in 12" or 18" widths and are suitable for any Live Edge or Straight Edge tables.

| SelectTables™ Custom Tables

When you've decided that it's time to purchase a new dining room table and chairs, you have a good idea of what you want. You shouldn't have to settle for something that's only close to your ideal furniture. With SelectTables™ by Barkman Furniture, getting exactly the style you want couldn't be easier!

All you have to do is select the following:

1. **Top Size**
2. **Top Shape**
3. **Edge Profile**
4. **Base** - choose from Legs, Trestles, or Pedestal Bases.
5. **Wood Species** and **Finish** color; or **Powder Coat** color if you chose a steel base.

This allows you to configure endless options to easily create the perfect custom table!

| Dining Chairs

Barkman Furniture's dining chairs are crafted for style and comfort. Our extensive collection of solid wood and upholstered chairs in a wide variety of styles provides great selections for any individual. Each chair frame features robust mortise and tenon joinery, corner blocks, and screws under the seat, providing the best and most solid construction available. As long as chairs are used responsibly there is no weight limit. Barkman's chairs deliver a stylish and worry-free dining experience.

All of Barkman's clothing storage is **STURDY Act Compliant**.

Our **anti-tipping single drawer opening system** allows us to maintain the use of **full extension soft close undermount slides**. If needed, **back weight** is also added. This system has been tested in house with Professional Equipment.

Chesapeake Bedroom Collection

Chesapeake features striking tiger maple on headboard panels and drawer fronts, which can be enhanced by combination finishes as shown above. Subtly recessed hardware on case pieces is a custom feature usually found only on more expensive furniture.

| Waterford Bedroom Collection

The Waterford bedroom, shown in a combination of cherry and tiger maple, represents the subtle fusion of classic Shaker lines with simplistic contemporary influence. Refined details include drawer fronts which are recessed from beveled frames and a unique “suspended” double panel headboard. The raised bed platform is designed to showcase tall tapered legs and can be used with a mattress only.

I Omni Office Collection

Omni utilizes mixed media to achieve a high degree of style combined with extreme utility and flexibility for the home office, in spaces ranging from large to small. Crisply welded steel frames blend with solid hardwood top surfaces to offer durable yet fashionable home office configurations. Special casters on chair and file drawers lend a definite post-industrial accent, and are gentle on fine hardwood floors.

I Custom Furniture

Barkman's custom furniture capabilities include everything from simple dimensional changes to in-line items, to true 'from a sketch' custom design and fabrication. Quotes are processed efficiently and returned promptly. Drawings are made for approval prior to production to ensure each piece will fit perfectly into the space it was created for. Custom furniture is crafted using the same time-honored techniques that Amish Furniture is known for, assuring a one-of-a-kind piece will last for generations. With Barkman Furniture's customization possibilities the options are truly limitless.

OCS Stain Samples

“OCS” stands for Ohio Certified Stains. OCS stains are developed on a continuing basis by a committee composed of twelve people representing Ohio builders, finishers and retailers. Since a very small number of finishing specialists do the finishing for the vast majority of Ohio builders, the OCS process insures that finishes are consistent and uniform from one builder to another. The committee also functions to maintain a finish selection that is fashionably appropriate and environmentally friendly.

Bi-Co Finish Samples

“Bi-Co” represents the selection of specialty stains and finish techniques developed and offered by three specialty finish shops in a two-county (Bi-Co) area of Ohio. These finishes provide selection beyond that which is offered in OCS and Barkman finish samples, primarily in specialty cracked, antiqued, layered and glazed effects.
